

Robert Frost School

Home of the Bears

Together...cultivating character and academic growth in each student....Every day.

2014 - 2015 School Goals

We work to meet the needs of all students and provide instruction and interventions that will help students to be successful. All students will demonstrate respect for their peers, their school, and their community.

Parent / Community Involvement

Our parent and community volunteers work in classrooms, tutor students, chaperone field trips, and help to facilitate special events. We have a Parent Teacher Club (PTC) which meets each month to provide opportunities and events for students, parents, and families throughout the year. Our PTC meets the first Tuesday of every month at 7:00 pm in our library.

Academic Theme or Focus

We are committed to providing instruction and support to help our students' transition from learning to read to reading to learn at Robert Frost.

Our School is Special Because...

Of our wonderful students, exceptional parents, and an outstanding staff that cares about each other and every child who comes our way. We are able to offer opportunities in music, art, PE, guidance, technology, and library for our students, along with a variety of academic supports to meet the needs and interests of all students.
