

Robert Frost School

Home of the Bears

Together...cultivating character and academic growth in each student....Every day.

2017 - 2018 School Goals

Our school goals include preparing 100% of our students for high school graduation by increasing reading and math skills and by attending school every day during the first month of school and having no more than 9 absences during the school year. We are also a PBIS school and our goal is that 100% of our students follow our PAWS expectations: Pride in yourself and school, Always be kind, Work hard, and Stay Safe.

Parent / Community Involvement

Our parent and community volunteers work in classrooms, tutor students, chaperone field trips, and help to facilitate special events. We have a Parent Teacher Club (PTC) which meets each month to provide opportunities and events for students, parents, and families throughout the year.

Academic Theme or Focus

Our priority focus is that all of our students can read at grade level. Students must be reading at grade level in order to access their education.

Our School is Special Because...

Of our wonderful students, exceptional parents, and an outstanding staff that cares about each other and every child who comes our way. We are able to offer opportunities in music, art, PE, guidance, technology, and library for our students, along with a variety of academic supports to meet the needs and interests of all students.
